Education

B.Tech in CSE (Artificial Intelligence & Machine Learning):

Rajeev Gandhi Memorial College of Engineering & Technology, Nandyal, Andhra Pradesh

May 2026

CGPA: **8.0/10**

Diploma (Electrical & Electronics Engineering):

ESC Govt Polytechnic College, Nandyal, AP

May 2023

Percentage: **84.3%**

SSC:

Sri Saila Public School, Nandyal, AP

june 2020

Percentage: **98.3%**

Technical Skills

Programming Languages : Python, Java

Database : MySQL, MangoDB

Computer Fundamentals : OOPs, Data Structures & Algorithms, DBMS

Developer Tools : Git, VS Code, Jupyter Notebook

AI & ML : Machine Learning , Deep Learning,

Frameworks : Tensorflow, Scikit-learn, openCV

Projects

CROP RECOMMENDATION SYSTEM (with SQL integration)

Smart India Hackathon 2024

Problem: Many Farmers are facing loses due to unstable changes in crop prices in future. So we came up with an ML Predictive model.

- Developed a recommendation model for a university project that achieved 85% accuracy in crop recommending for particular area with real-time dataset, resulting in improved crop selection and yield prediction accuracy for farmers by 20%.
- The prototype is a web-based platform where users give input of crop details and receive real-time price predictions.

BEST-PERFORMING STUDENT RECOGNITION SYSTEM

24 hr HACKATHON

- Design and developed a comprehensive Best-Performing Student Recognition System to identify and appreciate top-performing students from each admitted batch, considering multiple factors and utilizing machine learning techniques for dynamic ranking.

AUTONOMOUS SURVEILLANCE CAR (Major Project)

Tech used: Arduino, Raspberry Pi, Python, Sensors, Motors, Camera

- Designed and built a self-navigating surveillance car using sensor integration and live video feed.
- Enabled object detection using OpenCV and Python on Raspberry Pi.
- Used Arduino for motor and sensor control logic, and lead a team with deadlines.

Certifications

- CISCO - Python, IT Essentials
- Coursera - Google Cloud Fundamentals
- DeepLearning AI - Advanced Machine Learning Algorithms

Achievements

- Conducted many workshops on Arduino and Prototyping for IOT Projects in Govt. Schools.
- Team Lead – Autonomous Car Project and led team for National Robotics Championship 2025 (Delhi)

REFERECES :

Dr. G. Kishor Kumar M.Tech , Ph.D

Professor & Head , Department of CSE (AI&ML)

RGM College of Engineering and Technology (Autonomous), Nandyal - 518501, Andhra Pradesh, India.
